

Fund Overview

Long-term capital appreciation by investing primarily in equity securities of companies around the world and fixed income securities issued by governments or companies of any country. May invest in any country or industry in any proportion. The Fund's Series A (Hedged) seeks to minimize the impact of currency fluctuations.

* Management Expense Ratios (MERs) are based on the most recently available figures and are unaudited. MERs may vary at any time. The MER is the combination of the management fee, insurance fee, operating expenses, HST, and any other applicable non-income tax for the fund and for the underlying fund.

Linked Interest Options are NOT mutual funds, segregated funds, indices, or any other kind of investment fund: the policyholders are NOT investing in or acquiring units in an investment fund or other security. Funds are placed on deposit, earning interest, with Equitable's general funds. Policyholders may be credited positive or debited negative interest depending on the performance of the underlying fund or index being tracked. The underlying fund or index being tracked may change at any time. Linked Interest Option administration fees will apply.

The Linked Interest Options available with an Equitable universal life insurance policy offer exposure to both equity and fixed income markets. While Linked Interest Options may provide the potential for greater rates of return over the long term, there is an inherent risk in selecting them as investment options. Unlike the daily interest account or the guaranteed deposit accounts where there are guarantees related to the credited interest rates, investments in the Linked Interest Options are NOT GUARANTEED. It is possible to receive negative interest, which will result in a decrease to account value. Policyholders should ensure that there are always sufficient funds to cover the monthly charges, including cost of insurance, administration fees, and any riders and benefits. Interest earnings shown above do not reflect the current Linked Interest Option administration fees. The Linked Interest Option administration fees must be taken into consideration when determining interest credited or debited to the policy. Please see the policy contract for details.

Values for reporting periods under 1 year reflect the actual percentage change for the period in question. All other values shown reflect average annual compound rates of return. If the Linked Interest Option tracks an index, interest credited or debited will be 100% of the movement of the total return index, including the reinvestment of dividends. If the Linked Interest Option tracks a fund/portfolio, interest credited or debited will be 100% of the net rate of return, including the reinvestment of dividends.

Equitable's universal life insurance products are not issued, sponsored, sold, promoted, or endorsed by: Toronto Stock Exchange, the McGraw-Hill companies, Inc., Franklin Templeton Investments, Mackenzie Financial Corporation, 1832 Asset Management LP, Invesco Canada Ltd, S&P Dow Jones Indices LLC or its affiliates, Dow Jones Trademark Holdings LLC, Nasdaq, Inc. or its affiliates, Standard & Poor's Financial Services LLC, S&P Global, Fidelity Investments Canada ULC, or Stoxx Ltd. None of these entities or their affiliates make any representation or warranty, expressed or implied, whatsoever regarding the advisability of selecting any Linked Interest Options, making any investment with The Equitable Life Insurance Company of Canada, or acquiring a universal life insurance policy issued by Equitable. As such, none of these entities have any association, liability, or responsibility with respect to Equitable's universal life insurance products, nor do they have any liability for any errors, omissions, or interruptions of the index or fund which they manage.
