* Management Expense Ratios (MERs) are based on the most recently available figures and are unaudited. MERs may vary at any time. The MER is the combination of the management fee, insurance fee, operating expenses, HST, and any other applicable non-income tax for the fund and for the underlying fund.

Any amount that is allocated to a segregated fund is invested at the risk of the contract holder and may increase or decrease in value. Segregated fund values change frequently, and past performance does show what will happen in the future. Investors do not purchase an interest in underlying securities or funds, but rather, an individual variable insurance contract issued by The Equitable Life Insurance Company of Canada. There are risks involved with investing in segregated funds. Please read the Contract and Information Folder before investing for a description of risks relevant to each segregated fund and for a complete description of product features and guarantees. Copies of the Contract and Information Folder are available from your financial advisor or equitable.ca.

Values for reporting periods under 1 year reflect the actual percentage change for the period in question. All other values shown reflect average annual compound rates of return. All returns are net returns, i.e. they reflect changes in unit values, reinvested distributions, management fees, and applicable administration fees.

Unit values are not guaranteed and fluctuate with the market value of the fund assets.
